Self-Directed Professional Development

Self-Directed Professional Development is choosing to initiate one's own activity rather than partaking in one that is available on the Professional Development Day.

No funding is available from the STA beyond what is allotted as per Pro-D guidelines (see STA District Professional Development Policy Handbook).

A group of colleagues of like grades or interest/subject areas may submit one form by listing their names and school(s) on it together.

Please submit this form to your school's Pro-D Representative. The representative may share your self-directed initiatives with other STA members to open up opportunities for teachers to work together.

Pro-D Representatives – please submit a copy to Ilda Turcotte, Pro-D Chair (via STA Office), no later than **two weeks after each Pro-D day.**

Name	School	Phone No.
